ANGELES

Rainbow of Fun Planned For Club Day Activities

By KELLY JOHNSTON Staff Writer

In accordance with its theme, Club Day promises as much fun as there are colors in the rainbow. The festivities will be today at 11 a.m. un-

til 1 p.m., in Monarch Square. "Rainbows" is the theme for this semester's Club Day. Club booths will be judged and those that most reflect the four areas of judging will be awarded prizes. Approximately 29 clubs will be participating.

"I want everyone to come out and have a super time," said Steve Hamburger, Club Day Chairperson. "Everyone can listen to good tunes and eat different ethnic foods.'

Clubs will be judged on four categories: 1. originality, 2. reflecting the Club Day theme, 3. involvement and participation and 4. club related.

The judging will be done by Farrel Broslawsky, professor of history; Alan Greenburg, business major; and Lisa Sherk, child development major.

Prizes will include a bowling ball and free passes donated by Brunswick Bowler Land, large sandwiches donated by Union Sub, and hamburgers and fries donated by Mc-

The Broadcasting Club will be sponsoring a rock band in the free speech area. Student Zionist Alliance will be representing the world's rainbow peace in the United States and in the Middle East. Ski Club will be serving rainbow flavored snow cones.

Korean Club will have an ancestry display and fan dancing, Arabic Society will have belly dancing, the Choral Council will be singing rainbow songs and the Student Nurses

traditional Club Day backrubs and blood pressure readings.

Club Day is held in order to promote new membership and generate spirit around campus. Most of the booths will have exhibits or

foods that represent the theme of their clubs.

'I hope everyone joins at least one club," said Hamburger.

In case of rain, Club Day will be postponed until Thursday, March 20, and I.O.C. will meet as usual.

Investigations Continue; Irregularites Probed

By LISA KINGSLEY Editor-in-Chief

DIANE L. BLIMLING

Managing Editor Investigations by the District Attorney's office and the Los Angeles Community College District (LACCD) are continuing on irregularities concerning forged transcripts of athletes who received credits from Valley.

Norm Schneider, spokesman for the Chancellor's office, said Chancellor Leslie Koltai, "is and will be prepared to take disciplinary action" against any member of the LACCD faculty who has proved to have taken part in illegal activities.

According to Dr. Alice Thruston, Valley president, the district attorney is concentrating only on the

student's needs.'

seven forged transcripts from University of Oregon and UCLA athletes who received credits from Valley. "We're glad to get some expert help on that," she said.

In a late development announced Wednesday, President Alice Thurston reported that everything appears to be in order in the case of 12 athletes

The University this week had requested a check on the transfer credits, of the atheletes. Thurston said that Valley College is validating the tran-

Thurston made it clear that the District Task Force, made up of representatives from the District, by coaches to get athletes in shape and her own investigation are with no regard or sensitivity for

"irregularities taking place at this college." She indicated that some action will be taken quickly, possibly within a week.

She refused to comment on what disciplinary action would be taken or who would be affected, saying only, "it will be taken care of administratively."

The usual procedure in situations such as this is for any recommendations for disciplinary action or suspension to be forwarded to the Chancellor through the president of

Thurston concurred with what critics have termed the "feeding station" function of community colleges in this particular case, saying, "We've been taken."

"There is no question that the community colleges have been used

Lectures Revived; Afghanistan Topic

Staff Writer

After 15 years of dormancy, the Atheneum lecture series will be revived as tribute to retired Valley College history professor, Dr. Arnold Fletcher. It will be held Friday, Mar-March 21, at 8 p.m. in Monarch Hall.

Speaking will be Dr. Nake M. Kamrany, professor of economics at the University of Southern California, and former student of Dr. Fletcher's In Kabul, Afghanistan, in

Kamrany will discuss the steady increase of Soviet influences and political intrigue in Afghanistan. Reasons for the invasion last December, and the feasibility of guerrilla resistance will be examined. The question will be posed; is means for the United States. Afghanistan the scapegoat for future Soviet invasions?

In 1969, Kamrany predicted the current take-over. He will talk about thesis on the United States-Soviet

selling of a wide variety of Black ethinic foods. At 1 p.m. in Monarch Hall, a Black Experience slide show will be presented.

Also on Friday, in Monarch Hall, will be Elena Louise presenting her coast-to-coast fashion show and Phyllis Applegate performing a play and reading poetry, at noon.

A Black Student Union Basketball tournament at 10 a.m. on Saturday will be the last event of Afro-

Budget Surplus

Star

Dr. Thurston, Valley College president, has approved a \$10,000 surplus in the ASB budget, after a successful turnout of ASB membership sales this semester.

An estimated budget is set up by the Finance Committee before every semester, based on ASB membership card sales and the needs of the different clubs on Campus," Sheri Finley, ASB treasurer, said.

"As it turned out, this semester we underestimated the ASB card sales and extra money is provided to the ASB account.'

ASB will now take action and study all options concerning where to use the extra money.

G.P. Kubelek, Commissioner of Evening Division was voted by the Executive Council officers to form a committee, soliciting inputs onto what is the best way to spend the

Dr. George' Will Speak at Valley

By KELLY JOHNSTON Staff Writer

Dr. George Fishbeck, meteorologist on KABC-TV, will speak at Valley, Tuesday, March 18 in Mon-

Fischbeck will speak on "Romance and Humor in the Weather."

Born and raised on a farm in New Jersey, Fischbeck then became a electrician and later enlisted in the Army, where, during the Korean War, he worked as a weatherman in the U.S. Air Force.

A nationally-respected scientist once observed, "George Fischbeck is the Mark Twain and Will Rogers of the educational profession. People may laugh, but the humor is there for a purpose. People remember what they have been taught by him!"

In 1965 Fischbeck was called upon to join Civil Service Commission training teams that present courses in management, business office excellence, personal retention, and oral and written communication.

He has had the educational experience of teaching elementary science at the 5-6 grade level, and ninth grade science as well as college method courses in science at the graduate level, simultaneously during the same semester and often on the same day. He has received the coveted seal of approval from the American Meteorologist Society citing his 30 years of professional

Lutheran Church, functions as Councilman, Sunday School teacher, and lay reader. For a considerably length of time he held down the job of interim pastor for his church.

His sermons are so popular he has been called upon to give them in places such as Denver, Milwaukee, Seattle, Tucson as well as Los beck Power Savers Club." The latter resulted in thousands of honorary members in the Los Angeles area responding to the station with suggestions as to how they have congenetics, engineering, sociology, fine tributed to alleviating the energy

> The program will be brought to the campus through the efforts of John Buchanon, professor of speech, and his Speech 16 class.

Jaws Ready to Snap

It is for an excellent reason that the upcoming ballot initiative Proposition 9 is called Jarvis II. Like Jaws II, it threatens to take a second dangerous bite.

Jarvis II will cut personal income tax by 50 to 54 percent. The expected effect on state agencies is such that Gov. Brown has asked them to prepare "contingency budgets" reduced by 13 percent.

Star is opposed to Jarvis II. We believe that government agencies cannot serve effectively after such drastic reductions. It seems clear that should Jarvis II pass there will be fewer government services available, and those will cost more than before. This includes public educational in-

According to Norm Schneider, Public Information Officer of the Community College District, "What will happen is anybody's guess" should Jarvis II pass. The effect on the community colleges would be "obviously negative," he said. Although the Board of Trustees opposes the idea of tuition, it is doubtful that community colleges could remain free for long.

Jarvis' chief opponent, Albert Rodda, chairman of the Senate Finance Committee, says, "We're just not going to have the fiscal means to support the services of government if Jarvis II passes. If the universities, state colleges, prisons, mental hospitals, etc., were closed, the expenditure savings (about \$4 billion) would not be sufficient to offset the revenue loss.'

Jarvis says that his initiative will benefit the poor, but he admits it will benefit many business people, including apartment house owners. Of opponents such as Rodda, he says, "Politicians are liars." Jarvis also says that he receives \$5,000 for every speech he makes. Star believes that these statements speak for themselves.

In addition to affecting state and, indirectly, city agencies, Jarvis II may well inflict other wounds to county-run services, such as flood control. Jarvis I already took a healthy nip out of that. Star urges readers to consider this the next time it tougher than it has to be.

Enemies Seeking Peace

The last week in February, former enemies Egypt and Israel exchanged envoys, establishing full diplomatic relations.

In Jerusalem, Egyptian ambassador Saad Murtada presented his credentials to Israeli President Yitzhak Navon.

In Cairo, Israeli Ambassador Eliahu Ben-Elissar presented his credentials to Egyptian President Anwar Sadat.

Star wishes to commend the leaders and people of both countries for working to make this possible.

In these tense times, it is heartening to see that two countries previously involved

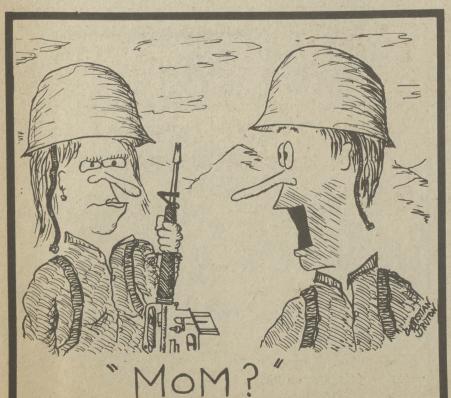

in bloody combat can finally solve their differences without the use of guns.

Of course, peace is far from complete. Much work remains to be done. A fair resolution to the problems of the Palestinian Arab people needs to be achieved. The fate of Jerusalem, the West Bank, and the Gaza Strip has yet to be decided.

In view of the potentially explosive situation in the Middle East and the past months' aggressions by surrounding countries. Star feels that the normalization of relations between Egypt and Israel is a hopeful sign.

VIEWPOINT

Senator States No Draft Exemptions

News Editor

Sen. S. I. Hayakawa, R-CA, recently stated that everyone should have to register for the draft.

is totally That statement ridiculous. Certain groups of people are entitled to be exempt.

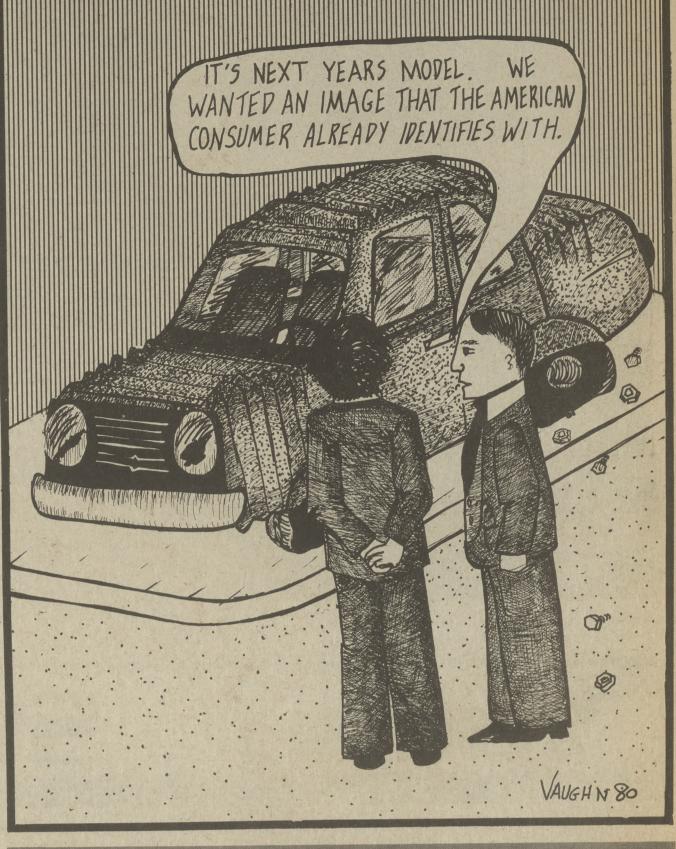

Veterans of a previous war have already "paid their debt to society." Expectant women are obligated to consider the safety of their unborn children.

Parents who have lost children in previous wars should not be asked to sacrifice an only-remaining child.

People with a mental disability or medical disorder have a legitimate reason for deferment. The same is true for those with a physical disability, but Hayakawa specifically included the handicapped in his statement, saying a man who has only one leg could be a tailgunner.

This shows a lack of sensitivity on his

If women are also elegible for the

COMMENTARY

Women's Advantage Pointed Out

BY HELEN HOLUM

Staff Writer Women's Awareness Week has cover toward total equality; however, in listening to some of the speakers, I wonder whether some of us are making that uphill push just a little

Granted, a lot of these women reached their present, responsible positions by their own sheer talents, push, and determination. But why the heavy stress that it was "in spite of men," or why the strong implication that all women have to stick together against "them" in order to make it at all?

Wasn't there ever a time in their lives when a male was encouraging,

LETTER TO THE STAR

Student Faces Aid Problem

supportive, or just quietly approving?

Didn't these women ever encounter pointed out that a lot of new things another female who tried to block have been happening for women. Cer- them in any way, subtle or otherwise? tainly, there is still some distance to I refuse to believe that in order to succeed in the so-called world" I must declare all men my enemies first and naturally assume all women are my allies.

Of course, we are going to encounter hostility and resentment. That happens whenever any new element enters an established order be it the new rich into aristocratic society or a female plebe into West

Is the point to show that we can do the job, or is it to "show those

Some male attitudes will be condescending. If your hardhat is off,

you'll probably get a pat on the head initially. If you don't bite his hand off, chances are you just might get several pats on the back eventually.

Some of the most supportive, helpful people I've encountered have been male instructors on this campus. If a couple hadn't been there to hear me out and offer constructive advice or help at various times, I might have given up preparing myself in order to make it "out there.

I've even encountered a couple of good guys "out there" when I've been scurrying around on my temporary jobs as a secretary—some men even get the coffee nowadays-or as a bartender. Since I'm not out to prove I can sling a case of booze over my shoulder as well as "they" can, I really appreciate it when a male coworker offers to carry it for me, especially when I haven't even asked.

Men are nice to have around, on the job as well as off.

We women have to approach this equal rights thing with the recognition that the real enemy in our way isn't the side that got most of the job favors from societal trends.

If we can do that, chances are one of these days we'll look up and find most of 'them' right besides us, helping us push that nasty societal boulder out of the way for good.

with the government, we are given the "run-a-round."

in Thursday's paper, I strongly identified with the problems she has had getting financial aid. The situation she is facing is tough, and I'm facing it too-little or no support from parents, 12 or more units, bills for this and that, and books which are outrageously expensive. Every day emergencies occur like the teacher who assertively says the following, "I would strongly recommend this book for my course as it enriches the two previous textbooks you bought.' How much does it cost?" I ask doubfully. "\$11.80." "Yecchh!"

As I read Ms. Beckerman's article

The point is that students, workers, and thinkers are making an investment in this great country. We invest our time, our money, our creativity, (our souls?) to build and strengthen a land where our children might fare

draft, what is to become of the children? At least one parent should be allowed to remain home with the kids. Or does Hayakawa believe they should be drafted, too?

He stated that men in their 40's should not be exempt. Should there be any age limit? Hayakawa said, "everyone." Does that include ages 10 and 90? Some older people do not have the strength or stamina to fight in a battle and war is no place for children.

Hayakawa said that he would be willing to fight in a war. If he wants to volunteer his services he should be allowed to do so, as should any member of these groups. But not one of them should be forced to enlist.

better than we did. Now, when we ask for an equal 'investment relationship'

If harmony is to exist between the government and its followers, then on this level of bureaucracy things must be changed. Making our rights harder to obtain must end. We are part of a government, and as John Locke wrote and later Jefferson, "We sacrifice some freedom for the good of all, but we all have certain inalienable rights," and if you don't know what these are in your heart go read your

comic book.

We the students, in order to continue our studies to improve our country, must be given attainable education, which includes financial support to get there. Sure we can run your maze, but damn, that takes time, and we need the money now, not in

Scholarship From ATAS Given to Valley Students

By ARNOLD SOLOMON

Staff Writer Brett Henry, a 19-year-old Valley College Television major, walked away February 19 with a coveted \$1,000 scholarship from the prestigious Academy of Television Arts and Sciences (ATAS).

"Me! I did it," said Henry. "I put together the entire package (to present to the judges).

It was a comprehensive package, including three letters of recommendation, a statement of his goals and objectives, a resume, a copy of his college transcript, and an all-important videotape of an interview of Henry with two members of the

"The judging was done by a panel of 10, five from the industry and five educators, who were looking not only for academic excellence and laboratory proficiency, but for a dimension outside of school, extracurricular activities," said James Eskilson, professor of broadcasting.

Henry's goal is to be a technical director on a TV show. He sees this as

Counselor Ashford Likes New Position

Staff Writer

New counselor at Valley College, Wanda Ashford, is a long-term substitute until the end of this semester. but says, "I like it here so much, I hate to think of it as temporary."

While working as secretary at San Diego State University, Ashford decided to take some courses. Although a business major at first, she discovered it was not for her and got into secondary education instead. She went as far as student teaching, but since she could not work and student-teach at the same time, she went into the master's program of education and couseling.

Ashford completed a B.A. in social science in an amazing two years and three months, and earned her M.A. after two more years at San Diego State University.

Transferring to UCLA, Ashford worked toward her Ph.D. She is currently assisting a UCLA professor her former teacher, in research of gifted black children.

In her five years of study at San Diego, Ashford also held down a parttime job counseling a designated group of mentally retarded young adults. The rewards were greater, she said, in working with the same group daily, rather than seeing a student perhaps only once in her office.

"However, this job does have a reward in being able to help them (the students) decide what they want to do, and knowing they have benefited from our discussion," Ashford affir-

After getting a divorce, being a student and a single parent with three children didn't slow her down. In fact she took in three foster children (a maximum of six children are allowed in a foster home) from various backgrounds.

Ashford's dream is to one day found a group home for children with

KVCM Expands To Increase Listenership

Valley College loud and clear? KVCM, Valley's own radio station, now broadcasts daily from 11 a.m. to 3 p.m. in the lower patio between

Monarch Hall and the Bookstore. The expanded programing was suggested by April M'Intire, commissioner of campus improvements, and approved by Ray Follosco, coordinator of student affairs, Thursday with the hope of increasing student involvement and awareness.

"I'll be taking a survey in a couple of weeks to see the response," McIntire said, "but we're using the best DJs we have so we're pretty excited about it.

DJ Craig Alexander will go on from 11 a.m. to noon, Emett Harrington from noon to 1 p.m., Louis Friedman from 1-2, and Del Rabinowitz from 2-

The shows will include updates of campus happenings, interviews, and 'good" music.

"The technical director is the first one on the set," he said. "He has the pieces of the show all mapped out even before the director arrives. He envisions all the camera angles and the best uses of the set. He is the

> Henry is in no hurry to "make it" in television. He plans to use the scholarship money when he transfers to California State University at Northridge in the fall.

> "Television news is basically bad news," said Henry. "But I see the world as a beautiful place and in my work I would like to convey in an artful way something that will make the viewer feel good.

For all of this ambition he is willing to pay his dues.

"I intend to work my way up in the TV business. I am currently a member of the student group at ATAS. And if I have to start my professional career at a 'go-fer,' I certainly will,'

New Counselor Gonzalez **Enjoys Helping Students**

By ARNOLD SOLOMON

Moreover, she declared that she

likes the atmosphere and the people

at Valley, "and now that I'm here,"

she added, "I'd sure like to stay."

Staff Writer Enrique Gonzalez, a counselor from Los Angeles Trade Tech. College, participating in a one-year exchange program with Valley College, is a man who is happy in his job. He even gets paid for it.

"It gives me a lot of personal satisfaction to help someone," he said. "I am very satisfied with my work and feel no need to change vocations...and I get paid for this!"

A native of Mexico, Gonzales was an auto mechanic when he came to this country in 1962. He couldn't speak English, so he started high school. He was 26. He is currently taking classes at Cal State Los Angeles for his master's degree in counseling.

"I got into counseling by accident," he said. "While working as an auto shop teacher at Trade Tech I was asked to be an instructor/advisor. When I discovered I had good rapport with students, I decided to become a counselor.'

"Counselors not only counsel but teach survival skills. They must

know and use communication skills and those skills needed for good interpersonal relationships," he said. "A counselor also must identify with his client's goals, values, and

"In doing this I found out a lot about me," he said. "I found I had the ability to help people and that I'm not threatening to anyone.'

Apart from his job at Valley, he leads marriage encounter groups under the auspices of the Catholic church. He also facilitates a seminar for re-entering students at Valley.

To curb Valley's high attritition rate, students could get involved in campus life. Many have little else in their lives than going to classes, he

"Many students do not know that counseling is available. They could benefit in their first semester from guidance, counseling, or individual attention of some kind. At the very least they could use 'orientation,' " he

A lighter class load for students could also ease the attrition rate at Valley, he said.

ROCKIN' OUT-The Mack Evens Boyd Band added a special touch to Afro American History Week. From left to right:

By DON VOLK

Staff Writer Lesa Foster. Information Center clerk, armed with the Faculty and Student Bulletins, the Master Calendar, and a card file of instructors and their schedules, answers approximately 120 questions a day in addition to taking 30 to 40 phone

"The only thing you really have to know is where to refer someone if you don't have the answer," she says.

Generally, the questions are straightforward, such as where to obtain a bus pass, when an instructor has office hours, or which window handles drop and add cards.

One student, however, asked Foster what color a peacock's tail

"I told her I assumed that they are green but referred her to a professor who is an ornithologist for confirmation," said Foster.

Registration is the busiest time, though. Students stand six or seven deep around the counter in the Administration Building, and the irritation levels run high.

You really have to like people. There are a lot of people who are upset and you have to soothe them at the same time you are trying to give them information," said Foster.

In addition to keeping track of all campus events, including those by community groups who rent campus facilities, Foster maintains myriad stacks of literature about the various departments, occupational certificate requirements, and applications for all the colleges and universities in the

'You need a good memory for this job. A person who doesn't remember things would have a lot of trouble doing it. I was an actress in college, so I am used to memorizing and retaining information," said Foster.

Telephone callers usually seek general information about applications, admissions, or directions to the campus for an event. Sometimes, however, people want to locate a student on campus. The Information Center does not divulge any student information. Calls are referred to a coordinator who locates the student and relays the message for an emergency.

"Our policy is that there should be complete privacy regarding students," she said.

Other information regarding student population and ratios or information about the college's policies are referred to the office that has the information.

The Information Center is open from 8 a.m. to 9:30 p.m. weekdays.

Foster what color a peacock's tail feathers are if the body feathers are Psych Prof Flattered by Large Student Turnout

By TRACEE TULLI Staff Writer

Sitting in his office which contains a gumball machine and is decorated with drawings from students, Prof. Mike Gardner talks of the subject he enjoys most, psychology.

Gardner received his master's degree in psychology from California State University, Northridge in

December of '73. Then he started his college teaching career by giving guest lectures about the brain. Hired by Valley in 1974, Gardner has become a well-liked teacher on campus, as can be seen by his standingroom-only classes. "It's flattering," said Gardner, "because you know what you are doing must be successful. But it's hard the first few weeks of school because I have to push students away, and I dislike doing that."

Presently teaching Psychology 1 and 2, Gardner has eight classes, which is three above the normal full time load. But to Gardner it's a pleasure, not a chore. "If I could, I would teach more because I get a lot of enjoyment from teaching and guiding people.'

One of the things involved in Gardner's Psychology 1 classes are tests unlike the scan-tron test. Instead of filling in the correct box on the object is to erase the correct box, and if you miss the first time you have the opportunity to try again. Gardner feels, "These tests are nice because they give immediate feedback to the students.'

As a student, he was really bored with boring teachers and decided, accordingly, not to be one. So when he teaches, Gardner shows the class that he is enthused with what he is teaching. "I get enthused when I teach, and enthusiasm is catchy, but by main concern is to get certain principles across to the students and have them enjoy learning them.'

Having worked at three community colleges and one university before teaching at Valley, Gardner says he enjoys working with the Valley faculty and students above all

In his spare time Gardner is a marriage counselor. He also enjoys playing basketball once a week with a few of his students.

Gardner's office is located in Bungalow 12, and can be reached on Extension 224, usually after 1 p.m.

GETTING TO KNOW YOU—Medical student Grace Downing Christ takes a look at a figure she'll become better acquainted with as she continues

Medical Schools Accept Woman Student, Age 41

Chief Photographer

A 41-year-old wife and mother is close to achieving her childhood ambition of going to medical school. Grace Downing Christ, a former Valley student and registered nurse, has been accepted by two medical schools, an amazing realization considering her age and problems.

Christ has been accepted by Loyola University Stritch School of Medicine and by Northwestern University, both in Chicago. There are possibilities that before the fall semester begins, she will receive other acceptances, perhaps one from a Southern California school.

Christ made the Dean's Honor List while at Valley, and was graduated summa cum laude from California Sate University, Northridge.

A native of Wisconsin, she moved to California in 1954. After graduation from Van Nuys High School, Christ attended Valley from 1957 to 1958, majoring in bacteriology. A serious motorcycle accident in 1958, with lengthy lawyer and court involvements delayed, but did not discourage her.

Christ took a 10-year break from school to travel to Ghana and Uganda, Africa, where her husband taught school and two of their three children

were born. She describes this "invaluable 10-year break" as "an unforgettable experience in first-hand social studies.' When Christ and her husband

returned from their second trip to Africa, she enrolled again at Valley, majoring in nursing. She earned her R.N. in 1970. "I always worked while in college,"

she explained, "I had the skill to command a better wage and I was on course toward my goal with pathology as the specific objective in medicine.

"Christ studied at UCLA in 1972 and 1973 where she got a degree in bacteriology, and also attended CSUN from 1974-79.

"You might say I was born to be a doctor," Christ said, "My father owned a funeral home and an ambulance service. My mother was a registered nurse. As far back as I can remember, I always wanted to be a

"I have satisfied the pre-medical requirements for any medical school, taking not just subjects requested but the most difficult courses of-

Her advice to students is "Have a goal, something you really want to do in life, and stick by it.'

Many Activities, Speakers Help Women's Week Click

Valley College's third annual Women's Awareness Week, sponsored by the S/He Center, brought a variety of speakers and activities to campus last week and a tremendous response from Valley students.

"Women's Awareness Week was very successful," says Henrietta Sparks, counselor at the S/He Center. "I think women are getting down to reality about issues affecting them and want to be informed. The issues we covered were very concrete, and the guest speakers we had and the women on campus dealt with them frankly," Sparks added.

Sparks credits early planning as the main reason for last week's suc-

the draft issue were also Valley students.

By far the funniest event of the week was the fashion show, "Are You What You Wear?", coordinated by Doris Richardson, counselor at Valley. Both women students and faculty members participated in the show, representing all ages, shapes, sizes, and types-not stereotype fashion model.

"Wanted to show what different women were wearing and why they chose to wear it," said Richardson.

Other features of the week included appearances from news anchorwoman, Connie Chung, Businesswoman Nancy Malone, Deputy Mayor Grace Davis, a panel was represented by three women from three different religious groups, and a variety of films and discussions, covering everything from rape to lesbian mothers.

An all-female brass ensemble and all-female jazz sextette also appeared.

Club Prexy Has Praise For Speech

President of LAVC's Iranian Club Ali Riazi lauded speaker Dr. James D. Cockcroft's lecture Tuesday at Monarch Hall saying he "appreciated the effort to bring the facts to American friends."

Riazi said American people are "agitated" by U.S. media, that they think there is no freedom in Iran. He called Cockcroft's lecture very complete, informative and factual.

"He brought out a lot of important aspects," Riazi said. "We (club members) see the Iranian situation and support President Bahne Sadr." He also noted that he "agrees completely" with Cockcroft's views and called for the "superpowers" to back out of Iranian politics.

"American news has...given a lot of false information," Riazi said. "That's why they were expelled by Iranian President Bahne Sadr. American news media has a responsibility to show people what the crisis is really like.'

Chung Attracts 400 To Keynote Speech

broadcasting locally," said Chung. "It's not like this in other areas; but Barbara Walters didn't really open the floodgates but she did begin a breakthrough.'

According to a 1979 tally taken by the U.S. Commission on Civil Rights, women are not doing as well as it may seem. At ABC, 89 percent are male. At CBS, 83 percents are male. At NBC, 89 percent are male.

"I believe I owe a lot to the women's movement. When I first started at CBS, they were looking for females to make up for the years of discrimination. I had only two and a half years experience in local news."

Chung feels there is a dichotomous attitude prevalent today. "Male reporters are encouraged to be tough and aggresive but when women are agressive, they are bitchy. Female newscasters must look good and be tough so that viewers know they are top reporters.'

"I think that women have made some inroads in the field of broadcasting, but certainly the battle is not won. I'm not a women's activist, but I support women as far as equal pay and treatment. At times women's issues are overlooked in the news, but

assign women's issues to women all

By BARBARA McAULAY Staff Writer

Iranian students cheered a pro-Khomeini speaker at Monarch Hall Tuesday during his lecture about the Iranian hostage situation.

The event was part of Afro-American History Week.

"Every man, woman, and child in Iran is willing to die today to resist outside aggression," said Dr. James D. Cockcroft, sociology professor at Rutgers University and Livingston College, who was a member of an international commission of inquiry on human rights invited to Iran by the Iranian Jurists Committee recently.

Cockcroft blasted President Jimmy Carter's Iranian policy, charging that Carter "provoked the take-over without beefing up embassy security" and said CIA involvement in Iranian politics is "a massive cover-up...the most black and evil page of American foreign policy in history.

He further charged Carter with "stonewalling" the ousted Shah's crimes with "macho politics," and accussed the President of inaction and "selective persecution of Iranian students in this country.'

According to Iranian militants, Cockcroft said, four of the embassy hostages are CIA operatives and documents "saved from the shredder" link CIA activities with Iranian government destabilization.

Cockcroft said U.S. media distorted American judgment of the crisis and said "the things you read about the Ayatollah Khomeini are fabrication." He painted a picture of the top Iranian as "a master of rhetoric" who is comparable to Vietnam's Ho Chi Minh.

"He stands as a living symbol of freedom to the people," Cockcroft said. "The Iranians respect and honor him." He further commented that Khomeini is "not a new force" in Iranian politics. "He combats political oppression every day of his

Cockcroft showed slides graphically portraying Teheran poverty and unemployment, and atrocities, including torture and murder that he said took place during the Shah's

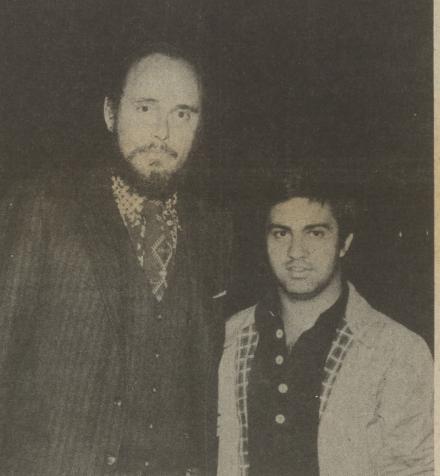

He called the embassy take-over the culmination of "100 years" struggle for freedom" and said Iranians demand the deposed Shah's return for trial to "show the world the depth of the Shah's crimes. They want the world to know what really happened so that it will never be allowed to happen again anywhere."

He said military unity is one result of the embassy seizure and that for the first time, the Iranian forces are gearing up to defend their country 'realistically" against "superpower agression.

Cockcroft called for more responsible media coverage and public pressure on the government to investigate Congress and "the White House where Carter isn't doing anything.'

He predicts Carter will meet enough of the Iranian's demands to bring about hostage release "right before the (presidential) election so he'll be a national hero and win the election by a landslide.

Commissioner of Black Studies Willie Bellamy, who introduced Cockcroft, termed the professor "a very dynamic speaker." He said Valley's Black students are concerned about the Iranian crisis because 'we are very humanistic in nature." He hopes young Blacks will become more aware of their own history in relation to the Iranian freedom

HUMAN RIGHTS INVESTIGATOR-Dr. James D. Cockcroft poses with Ali. Riazi, president of the Iranian Club after addressing students as part of Afro-American History Week. Cockcroft was one of several members of an international commission invited to Iran recently.

The Young Workers Liberation League was inadvertently omitted from the list of sponsors of the Anti-Draft Rally in the Feb. 28 edition of the Star.

Eagles Full Of Surprises At Forum

By SANDY PEHLIVANIAN Staff Writer

The Eagles were full of surprises during their Tuesday night show at the Forum.

Whatever the group's intentions, two full hours of neatly packed rockand-roll were played, delighting the capacity crowd with older tunes as well as with newer songs.

The modest stage act began with the projection of "Hotel California" on a background screen. The palm trees and sunset coloring insured the American image of the band while highlighting themes from the songs.

Fortunately, the Eagles steered away from performing a live "Eagles Greatest Hits" concert. Instead, they provided balanced material from their repertoire of hits and their recent album, "The Long Run."

The band displayed an evenness of sound, close to a studio recording, which was enhanced by the introduction of saxophonist David Saborn, adding a flowing touch to "Sad Cafe." Joe Vitale kicked in more percussion, alongside Don Henley,

vocalist and drummer. Joe Walsh, very much a part of the Eagles, contributed his rock hits, "In The City" and "Rocky Mountain Way," with the help of Don Felder on guitar. Glen Frey, keyboardist, and Timothy Schmidt added the harmony in ballads, such as "Desperado."

Despite the confidence that this established group exuded, the band could have used the freshness and energy of a newcomer. This very certainty of abilities is what caused the tiff between the Eagles and "Rolling Stone" magazine. No mention was made about this minor dispute, unless the zealous dedication of "Heartache Tonight" to J. D. Souther was actually an innuendo.

Roy Orbison opened the concert and has made a comeback with his latest album, "Laminar Flow," a welcome effort and reminder of his

The girls will host Ventura on March 13, and El Camino on March

Long Beach completely dominated the meet taking first place in every event except one. The diving competition was the only bright spot for

rough water last Friday as they were Ceglia took first and second places, respectively.

Other good performances were turned in by Jill Bergstrom, and Sheila Morris. Bergstrom took third place in the 50-yard Freestyle in a time of 29.6 seconds. Morris placed fourth in the 50-yard Freestyle with a time of 29.8 seconds.
